

FSU Faculty Senate Resolution on war in Ukraine

On February 24, 2022, the authoritarian Putin's regime of Russian Federation launched an attack on Ukraine and invaded a sovereign nation, forcing millions of people to flee their homes and to seek refuge.

We condemn Russia's war in Ukraine, and we stand with the Ukrainian people, with the local community, and with people all around the world calling for an end to Putin's war.

Recognizing the humanitarian crisis caused by the war and its impacts on academics and education worldwide, we call for policies that would welcome displaced students and academics at FSU.
